# SHELTERALL® ENVIRONMENT

Shelterall® is a cost-effective and sustainable solution compared to traditional buildings. It can be dismantled, and is modular and foundation-free.

Partitioning with mobile walls adapts to your working conditions and helps with the flexibility of your layout. Its galvanised steel frame meets the Eurocode building requirements.

Its design and manufacture have received SOCOTEC inspection agency approval. Its coated and fireproof tarp covering is guaranteed for 10 years\*.

Assembly options: steel partition (1) on (block/concrete) walls (2), on the ground (3)

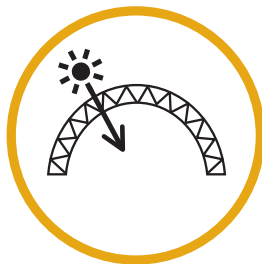

The Shelterall® range is available in width from 8 to 25 meters. (Wide range of options).

## + PRODUCT ADVANTAGES

Large working space

Optimal light levels

Turnkey solution

Construction standard
